I've lived a love forbidden  
An tried to realize me  
I will return to the sea  
To the way of stars

Now I live another life  
Away from my enemies  
All my pride keeps alive  
In a world without fear

Looking at two eagles fly  
Drawing the sky  
A broken heart

If the spell of this long farewell  
Could bring back my childhood dreams  
Like an angel that fell from the sky  
Did you just find my  
For (a) long farewell?

Find the means to paradise  
A place among harmony  
Leave your wishes far behind  
So I hide all my tears
