Say a fair word to me  
To show me how I  
Will be free  
Away from here

Now desperate small town  
Leaving behind  
Sunken in pain

The journey  
Will start these days  
One last time  
My face will feel sorrow and I say (please)  
Let me go in peace

My life goes with the rain  
So weak and broken  
Find a word  
With no straight lines

I will see  
Life is all the same  
Without you  
Sunken in pain

The journey  
My soul burns again  
One last time  
My face will feel sorrow and I say (please)  
Let me go in peace
