"Wait For Tomorrow"

Come rain storm
The clouds are coming down
The sun sends a light in my eyes
I learn, with the games of life

Secrets inside little box
Hiding all the people hearts
Like a dream

When I look around me
The time goes by without meaning
Now the end I'll come

(I) see the expression of sorrow
From people who ain't left behind
They can't await for tomorrow
Because they've lost hope in their hearts

The miracle of life
Blends with the shadows
Rising dark rainbow

Blinding my eyes
I walk alone
Away from the storm
Trying to find
The strange beauty of dreams
