Coming - going  
Vipashana breathing  
Relax the body - Relax the mind

Swallowed by effulgent dark  
Embraced by elysian light

Coming - going  
Shapes disappearing  
Inside of the body - Inside of the mind

Swallowed by entrancing depths  
Embraced by empyreal love

We're gathering strength  
Like a growing storm  
Invoking the power  
Our images will change

Awake - God inside - Awake  
Power - Raise in me  
Awake - Deep within - Awake  
Power - Blend with me

The god inside once buried by fear  
Waits now for the words setting him free  
... Set him free...
