Dress up for the occasion
The armor's down a ways
Lovers split for you'll never be
Come I said for the reality invasion

Strapped into place at full speed,
With the horror that reality brings.
Let the blood spill, Watch the kill!

The horror has just begun
Sent them away with the guns
It will chain us down, you see?
But what else could we do to stay free?

Strapped into place at full speed,
With the horror that reality brings.

Let the blood spill, Watch the kill!

Locked in a dungeon far below
Shackled, chained to the floor
Trapped in society's beliefs
Come with me to break free
For prisoners we don't always want to be...

Strapped into place at full speed,
With the horror that reality brings.
Let the blood spill, Watch the kill!
Let the blood spill, Watch the kill!!
Just unstrap yourself
Just unstrap yourself... yourself
