A forwards man in a backwards world
Getting nowhere with the womanly girls
Getting buff on steroids
Shooting up like a little boy

Living on the topic of a red man's soul
Pass around the joint gonna do a little more
Guitar's screamin' and the bass is high
So are my friends and I

Getting nowhere
Are we getting anywhere?

Everyone runnin' around the town
Acting foolish like a headless clown
I'm flying so high on the next door cloud
Demons in my head gonna take me down
Getting nowhere
Are we getting anywhere?

Everyone asks why I sweat so much
Wait till they see what I packed for lunch
Everyone wonders why my nose bleeds
I just tell them it's one of those things

Living on the topic of a red man's soul
Pass around the joint gonna do a little more
Guitar's screamin' and the bass is high
So are my friends and I

Getting nowhere
Are we getting anywhere?
