[lyrics by Guilhermino]

The disfigured face trips at noon
The god in laughing channel... hides in stone
Morning after night... midnight spell
Recovering all my sores where I dwell

Thousand thorns will fall
Hammered hearts will rise
Browsed mistress comes
You will fall

Disfigured face trips at noon
The god in laughing channel... hides in stone

Patheon: set the fire
Patheon: lore of pain
Patheon: ritual mind
Patheon: you will fall!

Patheon sights
Masters of Pride
