(S.GebÃ©di/A.Scherpenberg)

In the name of Allah, they kill each other The Ayatollah  
is their god, in Hell his soul shall rot Progressive  
Destructor Progressive Destructor Women living in  
fear, their faces may not be seen But between their  
legs he is pleased, and spills his unholy seed  
Progressive Destructor Progressive Destructor Unholy  
sacrifice, senseless minds finds their way to death A  
new F¼hrer has risen, a new nightmare has begun  
(SOLO:ERWIN) Soldiers of Allah, blind obedience till the  
end Mass destruction for faith Dripping with blood,  
burning in flames (SOLO:ERWIN) (REPEAT 1st VERSE)  
Secrets of pleasure locked up in the book Fall to your  
knees for the Ayatollah's commands Live by the lies of  
your lord Your lord who was aborted from the bitches  
wombâ€¦
