Conforming to dogmatic standards, institutional
obedience
Chained in solidarity, individuality obscured
To inhere in a contrived framework of hate
Embodiment of a contagious ineradicable malignity

Stigmatising an ethnocentric projection
To instigate the process of dehumanisation
Inveterated preconception, xenophobia
The opponent envisaged as the incorporation of evil

Imminent eruption of violence, a sanction to kill
Violence is justified to accomplish the ideology

Intrinsical latent sadistic beasts emerged, Servants of
hatred

Systematic obliteration commenced , Indulging the
enforced superiority

Intrinsical latent sadistic beasts emerged, Servants of
hatred

Pushing a cold barrel, against the uvula

Cringing, to grovel, retching, to regurgitate

Shivering of anxiety, adjurations in agony
Pathetic human life, You're better off dead
Ravishing (worthless) human life, to be exterminated
like vermin
Pathetic human life, You're better off dead
