"Terminal Breath"

In our final hour of darkness
Mankind breathes its terminal breath
Memories - all that remains
Human life as we know it ... shall die
Blackened clouds are closing in
Evil forces gathering
Day of Judgement, Dawn of Death
Planet Earth is now deceased
As your life passes
Before your eyes
The final chapter
You realise
Being drained of life
Drowning in pain
The ultimate horror
Intensely slain

Lungs are filled with the stench of death
smell of blood and dismemberment
Suffocation now sets in
Termination has begun
Fighting the pain in your soul Drawn
to the gates down below
In the wastelands of Hell
you shall dwell ...
Reign of Death, Realm of Gore
Wastelands of Terror
The Kingdom below
loss of senses, loss of control
Drained of joy, Hatred within
(repeat 1st verse)
