Buried in darkness, her deepest fear  
(She became) one with the water, one with the sea  
One became two, then two became one  
Feared by all, but helped by no-one

Death surrounds her, everyone dies  
Consumed by fear in the blink of an eye  
Paralysed by her evil stare  
How they died, no-one can tell

The curse was spread and visualised  
Watch the images within seven days you'll die  
Where does she come from, nobody knows...  
But you will find out and then you'll burn down below

Buried in darkness, her deepest fear  
(She became) one with the water, one with the sea  
One became two, then two became one  
Feared by all, but helped by no-one
