Obey and open wide, let me penetrate you with my lies
I am the one divine, approach my facial shrine

Another piece of meat, you play the bitch in heat
Your face will be defaced, you'll taste the seeds of hate

Your innocence is lost
(you want to be) A star at any cost
Your dreams are to be shattered
Your body to be splattered

I am the god of gore, a sexual carnivore
Face down on the floor, feel me deep you cunting
whore

Your blood is everywhere, screams of pain and despair
Your intestines adorn the floor, and decorate my walls

Your innocence is lost
(you want to be) A star at any cost
Your dreams are to be shattered
Your body to be splattered

Defloration, Humiliation, Violation, Devastation

Your dreams are shattered, your body is splattered
Your life's destroyed, the sow is mine
