"They Feed On Fear"

Visit "[They Feed On Fear](#)" on MotoLyrics.com

Feeding our fears, corrupting our minds
They indoctrinate the masses, with their manipulating
lies
Fear of terror, fear to speak out
Dazed and confused, full of doubt
Mass control is what they're aiming for

Fear! Upon us; the fuel for their betrayal!
Death! Befalls us, if we let them have their ways

They could easily liquidate the enemies of the state
But if they are set free, they generate more fear

Lies! Betrayers! I won't obey your words!
Die! Deceivers! I'll hit you where it hurts!

The feed on fear, they corrupt our minds...
The indoctrinated the masses
They impose new rules and regulations
To enforce their domination

Liars, deceivers, betrayers -- you will pay!

Fear! Upon us; the fuel for their betrayal!
Death! Befalls us, if we let them have their ways

Lies! Betrayers! I won't obey your words!
Die! Deceivers! I'll hit you where it hurts!

Subliminal... Mass control... Subjugation...
Subordination

Feeding our fears, corrupting our minds
They indoctrinate the masses, with their manipulating
lies
