I spy with my little eye
Something beginning with "B"
They call her beautiful
Beautiful face, beautiful underneath

In you I hear so much, I hear so much
Depression
Lonely in your world,
Sadness will void your world of colour
Mirror, mirror please help me
One advice to the one I love
Mirror, mirror just this once
"You are so fair, you are so fair
Why do you ponder?"

Mirror mirror on the wall,
Who's the fairest of them all?
Here's what you say, here's what you say
Next time she asks you; tell her it's her
She's the one!

Mirror mirror up so high
Fairest, fairest in the world
Please choose your words, please choose your words
Why does she ponder?
And on this world, no one surpasses her!

I spy with my little eye
Something beginning with "U"
She's unexplainable
Nothing describes how she appears to me

In you I hear so much, I hear so much
Bittersweet
You bring to me my joy
But why don't you listen to my words?
Mirror, mirror please help me
One advice to the one I love
Mirror, mirror just this once
"You are so fair, you are so fair
Why do you ponder?"

Mirror mirror on the wall,
Who's the fairest of them all?
Here's what you say, here's what you say
Next time she asks you; tell her it's her
She's the one!

Mirror mirror up so high
Fairest, fairest in the world
Please choose your words, please choose your words
Why does she ponder?
And on this world, no one surpasses her!

No one surpasses her!

Mirror, mirror,
Can you tell her,
She's the fairest
Here's what you say, here's what you say
Next time she says:

"Mirror, mirror on the wall
Who's the fairest of them all?"
Here's what you say, here's what you say
Next time she asks you, tell her it's her;
She's the one!

Mirror, mirror up so high
Fairest, fairest in the world
Please choose your words, please choose your words
Why does she ponder?
And on this world, no one surpasses her!

No one surpasses her...
