I'm spitting down on Christian churches, I burn the
cross away
I use the bible for my shitty ass and drive my car to fast
I throw my moral overboard and command the whore
to stay
I laugh my bomb is ticking quiet it will be a megablast

I feel like god and nail down Jesus godfukk megableed
I fuck my girlfriend in the ass I want her blood on my
dick
I command my followers and I name us evil Satan's
breed
I do what I want and worship Satan people call me sick

This is the anti trend mega blasphemy song
Anti trend super mega blasphemy
This is the anti trend mega blasphemy song
Anti trend super mega blasphemy

I am possessed by the power of life I am the original
I love it when girl suck my penis I love the way I walk
I am not Marilyn Manson but call me count anal
Be care when we discuss I am used to lie whenever we
talk

I feel like Satan GLORY BE! And I am the one who is
free
I laugh about kiddies with satanic corpse-paint
And I show them my godfukking unholy ass
They look like girlie-boy that make the gay-taint

[Rep. Chorus]
