We tried to fight for what
we thought that we believed in
maybe it was all for nothing
i bet that it was all for nothing

so we drive cuz we like to be alone
there's no where for us to go
there's no where for us to go

how can you think,
that any of this was easy
with all the friends i've
lost along the way
when this is over
we're all getting older now
and we all play a part in it
innocence is falling
can you hear them calling now
but i'll be by your side until the end

we tried to fight again
sometimes you find it's pointless
as long as you can live with yourself
tell me how you live with yourself

so it's time we take the open road
there's no where for us to go

there's no where for us to go

how can you think,
that any of this was easy
with all the friends i've
lost along the way
when this is over
we're all getting older now
and we all play a part in it
innocence is falling
can you hear them calling now
but i'll be by your side until the end

to all my friends

let's make this count
we're not alone
not alone

how can you think,
that any of this was easy
with all the friends i've
lost along the way
when this is over
we're all getting older now
and we all play a part in it
innocence is falling
can you hear them calling now
but i'll be by your side until the end
