The words are coming I feel terrible
Is it typical, for us to act like this
Am I just another scene
From a movie that you've seen 100 times
Cause baby you weren't the first, or the last, or the
worst
And I've got to fill the blanks in this past with a verse
We could sit around and cry but frankly you're not
worth it
Anymore

So say hello to all the boys at the top of this table that
you're under
Lipstick lullabies
This is sorry for the last time
And baby I understand that you're making new friends
This is how you get by
The moral this time is
Girls make boys cry
And I...

On any other day we'd shoot the boy
But your simple toy
Had caused a scene like that
Leave him hanging on the walls
Just a picture in the hall
Like 100 more
Consider this as a gift as you taste him on your lips
And he's making you scream with his hands on your
hips
I hope he's leaving you empty baby this is just a fix
For such a simple. little. whore.

So say hello to all the boys at the top of this table that
you're under
Lipstick lullabies
This is sorry for the last time
And baby I understand that you're making new friends
This is how you get by
The moral this time is
Girls make boys cry
And

Your name remains the same
All that has changed is this pretty face
So pull the trigger (Your name)
It never gets closer (remains the same)
You want to start over
But never start over

Pull the trigger (All that has changed)
It never gets closer (is this pretty face)
You want to start over
But never start over

So say hello to all the boys at the top of this table that
you're under
Lipstick lullabies
This is sorry for the last time
And baby I understand that you're making new friends
This is how you get by
The moral this time is
Girls make boys cry and I...

Say hello
Say hello
(Whoaaaa)
Lipstick lullabies
This is sorry for the last time!
And baby I understand that you're making new friends
This is how you get by
The moral this time is
Girls make boys cry and.
