I'm burned out like a bright light, I wasn't ready for this  
You're adorable as hell, but I'm glancing at your wrist  
Oh please have faith, I can be so cavalier  
And when they start to ask questions, I'll make sure to  
be clear

When you see my friends, tell them hi for me  
Tell them what you think about the way you handled  
everything  
You turned and all you left me with was this broken key  
So tell me what you think

Give it up for the long nights and all those terrible  
fights  
Were you honest with yourself, every version of  
yourself?  
Did you get lost on the side of the road?  
If you keep acting this way, I swear I'll never come  
home

When you see my friends, tell them hi for me  
Tell them what you think about the way you handled  
everything

We walk alone on this broken road for eternity  
So give me company and help me sing this lonely  
melody  
You turned and all you left me with was this broken key  
So tell me what you think

Sign me up, no regrets  
Make a man out of me  
And I won't say a word and I'll give all the things  
That you want and I need just to give me some peace  
At the bottom of the ocean there's a place for you and  
me  
Lead the way, straight ahead  
You gave me the time of my life and cut like a knife to  
the bone

When you see my friends, tell them hi for me  
Tell them what you think about the way you handled

everything  
So neat and clean, well the world is full of such pretty  
things  
So do your best for me
