They say love can move a mountain  
Love's gonna bring down trees  
It's on this that I'm counting  
cause for your heart

I found the keys, keys  
Yeah the keys to your heart heart  
Yes I got them on a chain chain  
When the doors come apart part  
We'll never be the same same

Alright.. hey...

I used to be a teenage drug-taker  
I used to hate the taste of cheese  
I was gonna be an undertaker  
until for your heart I found the keys keys .....

Yeah the keys to your heart heart  
Yes I got them on a chain chain  
When the doors come apart part  
We'll never be the same same, alright

the keys to your heart heart  
Well I got them on a chain chain  
When the doors come apart part  
We'll never be the same same, alright

Yes I got the keys to your heart
