Why wait another day  
To sit around and never play  
The games you want to win

Lately I've been confused  
I've laid around  
And never used my mind

Into the darkness where I've been waiting around  
I stood right in front of the light  
And turned back around  
Way down down down.....

Low down and high strung  
The light you see deep underground  
Is never like the suns

And lifetime they go misused  
It's suicide to live and not pursue

Chorus

You don't wake up until tomorrow  
Has come and gone...  
But don't wait too long

Do what you want should be  
The whole of the law  
Love is the law  
Love under will
