[Hypnotized, you've got me hypnotized]
Ooh, when I saw you last night
It brought back memories to life
Of how we used to love one another
So sad we didn't go any further
But I need you (by my side)
I need you (by my side) x3
Just like this ??? (please slow down)
By your love I was bound (I was bound)
When my love comes down (Love comes down)
I pray to God you'll be around
Cuz I need you (by my side)
I need you (by my side) x2
I need you Ooohh
~Whistle Solo~
I need you (by my side)
I need you ooh
All my skies will be gray (do do do do)
Until you show me the way
I need you baby x2
Every day I need you yes I need you baby
I need you baby x2
