Richard, hello, I know it's 4am on New Years Day
I never made it home last night, alright.
A minor so they dropped the charge and I'll be out
today
I know that that don't make it right
It's never black and white but

Richard you taught me all I need to know,
But there's some things you can't prepare for
All I ever wanna do
Is be as good a man as you.

So don't you be concerned
(The kid's alright)
I gotta live and learn
(The kid's alright)
I know that you will see
(The kid's alright)
I'll find my way eventually.

Richard, your tears fall on the wheel as you wipe them
away
I've never seen you so far gone, along
The snow is tumbling, as you're wondering what you
didn't say
When I'm the one who got it wrong
I tried to keep you calm cause,

Richard you showed me what was wrong and right
But now I gotta live my own life
I will fall along the way,
But I'll remember what you say.

So don't you be concerned
(The kid's alright)
I gotta live and learn
(The kid's alright)
I know that you will see
(The kid's alright)
I'll find my way eventually.

Woah woah,
Reach out, Richard,
Woah woah,
Reach out.
(x2)

I know you see yourself inside my eyes
Richard don't worry 'cause the kid's alright
I gotta live and learn.

Richard you barely made it out of school,
But look at everything you been through
Apples fall right from the tree
As long as you are here for me

I'll never be concerned
(The kid's alright)
I gotta live and learn
(The kid's alright)
I know that you will see
(The kid's alright)
I'll find my way eventually.
