they arrange own festivals where's the party where is
it well, multicultural & international scene, boots, beer
& fun
like it have ever been since 25 years stand it proud
the skinhead movement who's nobody bound,
skinhead your movement write history
believe in yourself & stay what you be
skinhead - your - movement
skinheads want to make it clear, hear the lyrics prick up
one's ears racists - fascists left or right, you don't
stand
on our side in the sixtees where it began comin' from
england as a workers man it's own tradition and culture
you don't know it beyond the core, they're peaceful
people not radical but fringe groups let ring alarm bell
unfortunately also as a scene there're the rightists the
roots in vienna the general of folks see a baldhead for
those are all the same like red is red
skinhead your movement
