Rain, a winter's rain  
Smears the neon window pane  
The corner table is in the dark  
Just like me  
Black, all i can see is black

I'm in the deep end  
Thrown into the deep end  
Don't pull the plug while  
I'm in the deep end

Fade, you won't fade  
From my memory for one day  
Double-edged memories  
Hover around my broken heart  
Dead, sometimes i feel so dead

I'm in the deep end  
Thrown into the deep end  
Don't pull the plug while  
I'm in the deep end

Time, soothing time  
Take this misery from my mind

I'm in the deep end  
Thrown into the deep end  
Don't pull the plug while  
I'm in the deep end

Time, soothing time
