

## The 4-Skins

### "Flow"

Visit "[Flow](#)" on MotoLyrics.com

I'm tired of living but I've lived this way for so long  
I'm tired of being weak, I used to be so strong  
I see the light but I never seem to find my way  
I'll try again if I live to see another day  
Some way, some day, I'll pay for what I've done  
O'kay it's time to give it to the Holy One  
The only one who can save me from a life of sin  
I've got to win got to see it to the very end  
I'll keep fighting til the day that He calls me home  
I'll keep writing til no words are left and I am gone  
I've got another shot and this time I'm not gonna miss  
That's right we flow like this

We get live, we get live, now we get live  
Because the One we worship is alive, yeah  
We get live, we get live, now give him praise  
Because it was for us He died

We get live, we get live, now we get live  
Because the One we worship is alive, yeah  
We get live, we get live, now we get live  
And that's right we flow like this

One time  
That's all it takes is one time  
One time  
It only takes one time to go
