You've gone away
I'll never be the same
Maybe time will heal the wound or
Time could tear apart
The love within our hearts
So far we've strayed

I know it's done but
I still believe you're
The only one fine day
That love will bring you back
Into my arms

Come back baby
Don't you stay
Away and
Leave me only
Sad and lonely
Beggin' you to say
Come what may
You'll come back
Stay forever
Leave me never
Baby please

Go deep inside, you'll find
The ties that bind up all
Our dreams and hopes together
Will you take them one by one
And break them
You're forgetting the one
That made them, please
Don't forsake them this way

Come back baby
Don't you stay
Away and
Leave me only
Sad and lonely
Beggin' you to say
Come what may

You'll come back
Stay forever
Leave me never
Baby please

If you don't come back, baby
Tell 'em all i'm crazy, but
Don't you ever say you cared
Baby i love you and

If you're thinking of me
Come on over here and love me girl,
I'm giving you the right
To all of me

Come back baby
Don't you stay
Away and
Leave me only
Sad and lonely
Beggin' you to say
Come what may
You'll come back
Stay forever
Leave me never
Baby please
