What you want is what you need. Why's that so hard for
for you to see
You can't run no and you can't hide. You can ask all that
have tried
Cause what you want is what you need. Why's that so
hard for you to believe?
Factors attempt to make you doubt, but it's up to you to
figure it out.

(Bridge)

If you want to feel it you can feel it
If you want to know him you can know him
If you want to you can have it
If you want to live it you can live it

Take some time to take it in.
Realize that your heart can mend.
It is there, it's in your eyes. You need to keep your
focus on the prize
Cause what you want is what you need. Why's that so
hard for you to believe.
It's in your sight where you need to be, you can free
your mind of this misery

(Bridge)

(Chorus)

Still with your questions seeking your answers
You masquerade right through your life behind those
lies
You got the questions He's got the answers
Realize this time you've got to kneel to rise

Still with you your questions, seeking your answers
Still with you with your questions (what you want)
You've got the questions, He's got the answers, you've
got the questions
What you want is what you need that's all you need to
know (is what you need)
