You say you're sorry  
I can't get over it  
I said I forgive you  
I can't get over it  
You say you'll learn from this mistake  
I can't get over it  
I should be giving you a break  
But I can't...

We've put it behind us now  
I can't get over it  
Nothing left to remind us now  
I can't get over it  
They say that time heals every wound  
I can't get over it  
You thought the worst was over soon  
I can't get over it

You need somebody  
Who can get over it  
You need somebody  
Who can get over it

We know you're wiser now  
I can't get over it  
I don't want to despise you now  
I can't get over it  
I try and force myself to forget  
But it's hanging right over my head

I've done so much worse so many times myself  
I can't get over it  
I've got no right to indict somebody else  
I can't get over it  
You hurt us both, I'm hurting us more  
Not getting over it  
Could I say I ever really loved you  
If I don't get over it

We need somebody  
Who can get over it

We need somebody  
Who can get over it  
We need somebody  
To take the pain of it  
We need somebody  
Who has bought and paid for you  
And it!  
And it!  
End it!  
End it!

Who's gonna help me  
Who's gonna help me  
Get past this thing  
Get past this thing  
To a real place  
To a real place  
Give you some space  
Give you some space  
Where I can face it  
Where I can face it  
We can erase it  
We can erase it  
Oh erase it!  
Oh erase it!  
Erase!  
Erase!  
Erase!

Erase!  
Erase!  
Erase!  
Erase!
