Bells buzzers sirens and horns
Ringing in my head
Bills budgets savings and loans
Always in the red

Times schedules deadlines and forms
I think I'll go crazy
Wish I could remember what it was
Like to be lazy

I'm always running out of time
I'm always standing in a line
I'm always spending every dime

Moments minutes weeks months and years
Just to end up this way
Toils trials troubles and tears
The endless price I pay

Thorns thistles thatches and tares
Tangled up in me
Gonna take much more than a man
To set me free

Why won't somebody tell my how to
Make a difference tonight
