Tuned in the radio
To a passion play
Sounds much better now
Sounds all the same
Say this, say that
It's just a game
Some things go 'round and 'round
But never change

No phony eyes
No phony eyes

Flipped on the videos
Chasing a rhyme
Watched all the scary bones
Into the night
Fade in, fade out
Build up the hype
Paper thin images
Drifting from sight

No phony eyes
No phony eyes

A thin veil of innocence
Can't smother the flame
Of this angry atmosphere
We're all insane face it, don't space it
It's not just a game
Too many phony eyes
Too little shame

No phony eyes
No phony eyes
