"Power"

I carry a signal from this powerful transmission
And I'll keep my mind focused on the mission
And a spiritual light has turned on in me
Like I was plugged right into southern company
And don't try to regulate the frequency
You ain't the holy power company
Lets get our hearts and minds set to be his warriors
We need to focus on God the true transformer

(Chorus)

POWER

I know you're feeling the

POWER

You keep ignoring the

POWER

Tell me are you feeling the

POWER
