Did we say when everything is clear
We'll want to be together?
We're over all the weather and the fear...
It takes so many dreams to engineer
A turnaround to see another
Thousand years
Can you imagine
Just one more dream
And did you know that
I'm still yours for the asking?
And if you ask me...
If you wanted to
Come out and say what you wanna do
How high can love rise?
Will it see the end?
We'd last a long time
When can we begin
To love?
Begin
