I'm snowblind
Whooooo snowblind
I'm so blind
And I don't know what I'm doing

It's so bright and so white

Won't you stop the light
I hate how it shines
Well, it's in my face, it's in my eyes
In my face, in my eyes and
It shines day and night, day and night

When day is night and black is white
Everything looks like a fright

Wrong is right and day is night
Night and day
Wish you were the one
Wish wish wish
You were, you were, you were the one

Night and day underneath the sun
I wish I could see the sun
But I'm snowblind
