Dance, glittering lights (2x)

Another friday night
another brand new start
when all the other nights
have torn you all apart
I know you gotta go
and look for something new
the night is for you
and you know what to do

Gotta move!
Gotta feel!
Gotta dance!

Glittering lights shining bright
over the dancefloor (glittering lights)
millions of nights
but you can't have this one anymore
millions of nights

I know you are burning
just like me
let me be your
nighttime fantasy

Dance, glittering lights
glittering lights
Dance, glittering lights

You always sit alone
and plan your destiny
and then you wonder
when you finally get your dreams
when will you realize
it all comes down to you
'cause nothing comes true
'till you go ahead and do

Gotta move!
Gotta feel!

Gotta dance!

Glittering lights shining bright
over the dancefloor (glittering lights)
millions of nights
but you can't have this one anymore
millions of nights

I know you are burning
just like me
let me be your
nighttime fantasy

Dance
dance, glittering lights
dance, glittering lights
dance, glittering lights

I know you are burning just like me
let me be your nighttime fantasy

Glittering lights shining bright
over the dancefloor (glittering lights)
millions of nights
but you can't have this one anymore
millions of nights (2x)

Gotta move!
Gotta feel!
Gotta dance!
Dance!
