They say: love comes and goes
Where love stays; nobody knows
I gave you all of my heart
I'm sorry it's over, we drifted apart

I belong in a different world
I believe: you and me

It hurts to say goodbye
It hurts to see you cry
I guess you won't believe me
But deep in my heart I'm crying too
I'm saving my last dance for you

They say: love comes and goes
Where love stays; nobody knows
I know just how you feel
But baby believe me: it will heal

I belong in a different world
I believe: you and me

It hurts to say goodbye
It hurts to see you cry
I guess you won't believe me
But deep in my heart I'm crying too
I'm saving my last dance for you

They say: love comes and goes
Where love stays; nobody knows
They say: love comes and goes
Where love stays; nobody knows

It hurts to say goodbye
It hurts to see you cry x3

I guess you eon't believe me
But deep in my heart I'm crying too
So I'm saving my last dance for you
