You get me going in every way  
Can i make you come  
In my direction?  
What's it gonna take babe?  
Are you gonna hear a single word that i say?  
I've got something  
I've got me  
When i get ready  
Then you're gonna see  
You won't ever  
Know how good it would be  
Believe in something  
You  
And  
Me  
I know that you were weak  
But i can see no sense makin' a big deal baby  
You didn't mean to hurt me, butS  
Are you gonna stay with him or give it to me?  
I look in the morning sun  
For a sign  
That it's time  
That we  
Make our move together  
And i know that we will be one  
If you don't know now  
Then you're gonna know...  
You'll know soon
