# "A Different Kind Of Light"

Visit "[A Different Kind Of Light](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I heard about the light of progress  
I could never see that far  
Couldn't find the light of success  
Must've had a change of address  
I don't care what the people say  
There's got to be a better way  
Don't want the usual merchandise  
Recycled in a new disguise

I took a shot at meditation  
I tried it like the old book said  
All I got was more frustration  
Must've had the wrong translation  
I don't care what the people say  
There's got to be a better way  
Don't want the usual merchandise  
Recycle in a new disguise

I'm following a different Light  
A different kind of light  
A different kind of light

They talk about a light inside you  
I hope I never get that blind  
I don't want to take my chances  
On joining the collective unconscious  
I'm waiting for the clouds to break  
I'm looking for the road to take  
Don't want the usual merchandise  
Recycled in a new disguise

Chorus
