All day long
All day long so alone
All day long
All day long so alone
Won't you come and take me Lord
Come and take me, take me home

Lordy please
Take me from this misery
Lordy please
Take me from this misery
Oh this old world don't look that good
I've already lived there - it's misery(?)

Lordy Lord
Lordy Lord let it rain
Make a muddy muddy river
Wash me clean, send me away

Lordy Lord
Lordy Lord, I don't belong
Lordy Lord
Lordy Lord, it's in this world I don't belong
I know your strength is in my weakness
But my weakness is gettin' a little strong

Lordy Lord
Lordy Lord let it rain
Make a muddy muddy river
Wash me clean, send me away

Lordy Lord
Lordy Lord, I don't belong
Lordy Lord, you've never failed me
When I've failed me you've been strong
I tried to make this old world my home
When right next to you is where I belong
