I come with lines, you talk in circles  
I own the blues, you rent the color purple  
I scream for ice cream, you whisper for wine  
You do your life, baby I do my time

I've got time, you've got none  
You know all and I know some  
I fall short, you stand tall  
You conceal and I show it all

I like playgrounds, you love games  
I nail things down and you rearrange  
You loved early and I love late  
You throw the dishes, babe I just clean my plate

(repeat chorus)

You plant a family, I dig a space  
I watch my back while you wash your face  
You work for money and I play for fun  
Babe you're so inviting but I still can't come

When I think of getting deeper with it baby  
You throw on something deep and purple baby  
Unlike me diggin' Donnie Lee and the Children of Truth  
babe  
Sit down! Shut up! listen to me go crazy...

Repeat chorus twice, substitute last line with:  
You conceive and I abort all

(repeat chorus)

Hey, yeah, I show it  
Yeah, show it- don't blow it  
Hey- hey- owwwww!  
Too much baby, alright
