Farewell, goodbye
God knows we tried
Our union so unsure
Could never endure

So we turn the page and say goodbye and walk away
from everything
That we worked so hard to save

Brought down by our storm
Our Eden is no more
We were so lost in love
That we never found resolve

So we turn the page and
Say goodbye and walk away from everything
That we worked so hard to save
I don't wanna start all over and
Try and find another shoulder
To lean on
'Cause yours made me feel safe

And now you're moving on
This is my blessing
Please stay strong
For what it's worth
I'm wishing you the best
I don't wanna start all over and
Try and find another shoulder
To lean on
'Cause yours made me feel safe

So we turn the page and
Say goodbye and walk away from everything
That we worked so hard to save
I don't wanna start all over and
Try and find another shoulder
To lean on
'Cause yours made me feel safe
Oh, yours made me feel safe, oh
'Cause yours made me feel safe
