A young brave stands upon a hill
An old man lies at his feet
Screams of pain and terror
Signal the old man's defeat

Elijah Black's blood now filled with rage
Starts seeking grandfather's revenge
Gathering his implements of war
Life's blood he'll defend

Create your circles
Sound your horn
Calling all walking dead
Enter the circle of life
Receive a fatal blow to the head

One zombie down
A blunt force blow to the head

Two zombies down
Off with your fucking head

Off with your zombie fucking head.
