Oh you crack a wink I spare a smile  
It was all so sweet before it began  
Holding hands and stealing glances  
Telling lies and taking chances

Oh you crack a wink I spare a smile  
It was all so sweet  
Holding hands and stealing glances

You try to lose her  
But you can't explain  
Three little words  
Keep calling out your name  
"Please come back home,  
Just come back home"

She slowly cuts; slowly mends  
Till you bend and break  
Breaking hearts bleed ink  
All that you can take  
With sympathy slowly  
Setting in your eyes

But then I saw you  
Exchanging more than words  
With lips that were ever so alive  
You're glancing past me with  
Those Words You keep inside  
But then I saw you  
Exchanging So much more  
Than I would ever like to see  
Don't say you're sorry  
Don't even say you're sorry now

OH, you crack a wink I spare a smile  
It was all so sweet  
Holding hands and stealing glances

You know it's crazy  
But you can't resist  
The twinkle in her eye  
The pleasure of her kiss

It's so pathetic  
But you can't be on you're own, no

She slowly cuts; slowly mends  
Till you bend and break  
Breaking hearts bleed ink  
It's all that you can take  
With sympathy slowly  
It's setting in your eyes

But then I saw you  
Exchanging more than words  
With lips that were ever so alive  
You're glancing past me with  
Those Words You keep inside  
But then I saw you  
Exchanging So much more  
Than I would ever like to see  
Don't say you're sorry  
Don't even say you're sorry now

But then I saw you  
Exchanging more than words  
With lips that were ever so alive, no  
Right then I saw you  
Exchanging so much more  
Than I would ever like to see  
Don't say you're sorry

But then I saw you  
Exchanging more than words  
With lips that were ever so alive  
You're glancing past me with  
Those Words You keep inside  
But then I saw you  
Exchanging So much more  
Than I would ever like to see  
Don't say you're sorry  
Don't say you're sorry  
Don't say you're sorry  
Don't even say you're sorry now
