There's a sign carved deep  
In the palm of your hand  
There's a birthmark craving  
On the left side of your heart

Your life was forever structured  
Composed and eternally given  
[Incomprehensible]  
[Incomprehensible]

[Incomprehensible]

Into your glory of emptiness  
I send my life force

My death, my death

Be death with me  
Be death with me  
Death with me  
Death with me

My death

Odium humani generis  
Odium humani generis  
Odium humani generis  
Odium humani generis
