"Rape Humanity With Pride"

Inside a mind so deranged, how I wish you all were
dead,
Annoying humanity sickens me, I contemplate your
extinction,
Inside my castlewalls life runs red!

The beast I caress you never see, everyday I destroy
your lives,
I have you now inside my head, I crush your feeble
maggot minds,

My work almost complete...
the flies collect the remnants, The Locusts shatter
flesh. FLESH!
The spells are cast, your dreams won't last, in perfect
destruction,
The spells are cast, your dreams won't last, you fell for
my seduction.
