People live in many ways
But the story it's always the same
Now it's time to take it easier

People know what people dream
But don't say the things they mean
Now it's time to make it faster

I'm playing this song
Do you think it's fine?
But it can't be bad, it's 'bout you
I sing my song
and I know you're here
and you are my Setting Sun

Here's your light my Setting Sun
Don't you see what I'm seeing now?
Don't you feel what I've done?
Here's your warmth my Setting Sun
Do you see what I'm seeing now?
Don't you feel what I've done
It's for my Setting Sun...
Just for my Setting Sun...

People feel it's time to change
But the world goes for revenge
Now it's time to make it sweeter
