"Keeping Me Alive"

It's like I never lived
Before my life with you
So much was missing here
I never even knew
I still picture the place we were
When I fell into your world

[Chorus:]
My heart is in you
Where you go you carry me
I bleed
If you bleed
Your heart beats
Inside of me
You're keeping me alive

I don't know why feel this way
But something's right
You're like the morning air
Before the light arrives
No more lonely and
No more night
No more secrets to hide

[Chorus]

I'll hold you near
Together, we'll never die
Your love is keeping me alive

[Chorus]
