

The Afters "Ocean Wide"

Visit "[Ocean Wide](#)" on MotoLyrics.com

Look outside
It's already light and the stars ran away with the night
Things we're said, words that we'll try forget,
It's so hard to admit I know we've made mistakes
I see through all the tears but that's what got us here

[Chorus:]
If love is an ocean wide
We'll swim in the tears we cry
They'll see us through to the other side
We're gonna make it
When love is a raging sea
You can hold on to me
We'll find a way tonight
Love is an ocean wide

I'll stay right here
It's where I'll always belong
Tied with your arms
Days like this, I wish the sun wouldn't set
I don't want to forget
What made us feel this way
You see through all my fears
And that's what got us here

[Chorus]

Love is an ocean wide enough to forget
Even when we think we can't
