Until You came I was just the same  
As everybody else  
Whoever saw the light and turned away

You love me now  
You loved me then  
And every now and again  
You show me how it would be if I'd gone the other way

After all this time I've come to find my soul's fragility  
But You've rectified my frailty by your strength

-Chorus-

It's like the sun swallowed up by the earth  
Like atomic bombs in reverse  
As if a glass could contain the sea  
That's the way You are in me  
That's the way You are

Now here I stand looking back  
To the way things used to be  
But I will never be alone again

Cause you're with me  
And now I see  
What it means to me  
To be a part of such a mystery

After all this time I've come to find my soul's fragility  
But You've rectified my frailty by your strength

-Chorus-

It's like the sun swallowed up by the earth  
Like atomic bombs in reverse  
As if a glass could contain the sea  
That's the way You are in me  
That's the way You are

After all this time I've come to find my soul's fragility  
But You've rectified my frailty by your strength

-Chorus-

It's like the sun swallowed up by the earth  
Like atomics bombs in reverse  
As if a glass could contain the sea  
That's the way You are in me  
That's the way You are in me  
That's the way You are  
That's the way You are in me (That's the way)  
That's the way You are in me (That's the way)  
That's the way You are in me (That's the way)  
That's the way You are in
