Let's analyze the situation
Your children are programmed by the same ten songs
in rotation

When it's not about expression anymore
When it's not about expression anymore
It's about which fad is bigger
It's about which fad is bigger

So don't play us on the radio
Don't let your children hear this song
They might identify with what I'm saying
Don't play us on the radio
Don't let your children hear this song
But the soul of music is deeper than you allow your
child to think

Don't you limit the mind of your child
Don't you limit the mind of your child

Hold on now
You have got your choice
Make it known that a billion small voices are loud
Hold on now
You have got your choice
Make it known
That it's not about their money anymore

I've got some questions I need answered
Can your conscience allow you to commit the murder
You to commit the murder
The murder of a mind
The most destructive kind
When you're still alive and burning inside

(Spoken)
Now folks
If you'd just step this way
You are about to witness
The most amazing
The most uncommon living monstrosity
Of all time
