"Someone To Come Home To"

Oh, oh, oh...

I want someone to come home to
I want someone to come home to
I want someone to come home to
When the day is through
Only you will do

I need your arms to enfold me
Your voice to whisper so sweetly
Darling, I really adore you
No other love have I
No other love have I

You're the sweet
The sweetest little girl I know
In your eyes, I see
What makes me love you so

It's the gleam
It's the gleam
I see in my dreams

I want someone to come home to
I want someone to come home to
I want someone to come home to
When the day is through
Please, let it be you

Da de da de da...
